

SRI SHAKTHI
INSTITUTE OF ENGINEERING AND TECHNOLOGY
COIMBATORE - 641 062

Re-Accredited by NAAC with "A", Recognized by UGC with
 Section 2(f) and 12(B) NBA Accredited UG Programmes : Agri,
 BME, BT, CSE, ECE, EEE, MECH and IT&T
 Coimbatore - 641 062, L & T By Pass, Tamil Nadu, India

Date: 13/09/2025 (A) Reg No:

CONTINUOUS INTERNAL ASSESSMENT TEST - II
Computer Science and Engineering (VII Semester)
21PEC16 ADVANCED WIRELESS COMMUNICATION

Time: 1 hour 30 minutes

Maximum: 50 Marks

Part - A (12 × 0.5 = 6 Marks)

(Answer all the questions)

1. Which of the following is **not** an example of a block code?
 a) Hamming code b) Cyclic code c) Convolution code d) BCH codes
2. Which of the following is not a source of interference?
 a) Base station in a different cluster
 b) Another mobile in same cell
 c) A call in progress in neighboring cell
 d) Any BS operating on same frequency
3. The ratio of throughput data rate per Hertz is called _____.
 a) Spectral density b) Bandwidth efficiency
 c) Power density d) Power efficiency
4. Expand CDPD.
5. In block codes, parity bits are _____ to a block of messages.
 a) Added b) Subtracted c) Multiplied d) Divided

EVEN

6. Co-channel reuse ratio is given by _____.
 a) $Q = D \times R$ b) $Q = D / R$ c) $Q = D^2 R$ d) $Q = 1 / R$

7. Space diversity is also referred to as _____.
 a) Frequency diversity b) Antenna diversity
 c) Polarization diversity d) Time diversity

8. Which of the following does **not** belong to space diversity techniques?
 a) Time diversity b) Equal gain diversity
 c) Selection diversity d) Feedback diversity

9. Interference in the control channel results in _____.
 a) Cross talk b) Queuing c) Blocked calls d) Voice traffic

10. For block codes with k information bits and n code bits, how many redundant bits are added?
 a) $n + k$ b) $n - k$ c) k^2 d) n^2

11. Which of the following is **not** a property of block codes?
 a) Cyclic b) Non-linearity c) Linearity d) Systematic

12. In dynamic channel assignment, a channel used in one cell can be reassigned at the same time to another cell at a reasonable distance. a) True b) False

Part - B (3 × 2 = 6 Marks)

(Answer all the questions)

13. Explain the term Antenna Diversity.
14. What do you understand by Space Division Multiple Access (SDMA)?
15. Define Alamouti Space-Time Code.
